**Register on or before February 15, 2019**

**This educational event is open to everyone in garden clubs as well as any non-profit organization seeking to get members to participate and accept leadership roles.**

This is an **interactive workshop** as presented throughout California and to garden clubs in fifteen states. The workshop is especially geared for organization leaders and those considering leadership positions.

National Garden Clubs, Inc. offers four schools for the enrichment and educational growth of its members. Upon completion of a school, members become flower show judges or consultants. In order to maintain accreditation, judges/consultants are required to attend refresher events that enhance knowledge acquired, explore current trends, and promote interest in the school subject. Consultants of Environmental, Gardening, and Landscape Design Schools are encouraged to refresh in refresher events sponsored within the organization. A multiple refresher may be for two (Bi-Refresher) or three (Tri-Refresher) of these schools where subject matter oftentimes overlaps to a large degree. Flower Show School courses/symposia concentrate on flower shows, horticulture and design.

Educational opportunities provided by National Garden Clubs:

Environmental School – designed to train students to appreciate the natural resources of our Earth

Flower Show School – designed to accredit judges for Standard Flower Shows

Gardening School – designed to stimulate interest in many facets of gardening practices

Landscape Design School – designed to train students to recognize good land use

# Southern California Garden Club

Encino, California

is proud to sponsor
